

SoftwareStore BUILDER

SOFTWARESTORE BUILDER TUTORIAL- How to Reset or Update Password

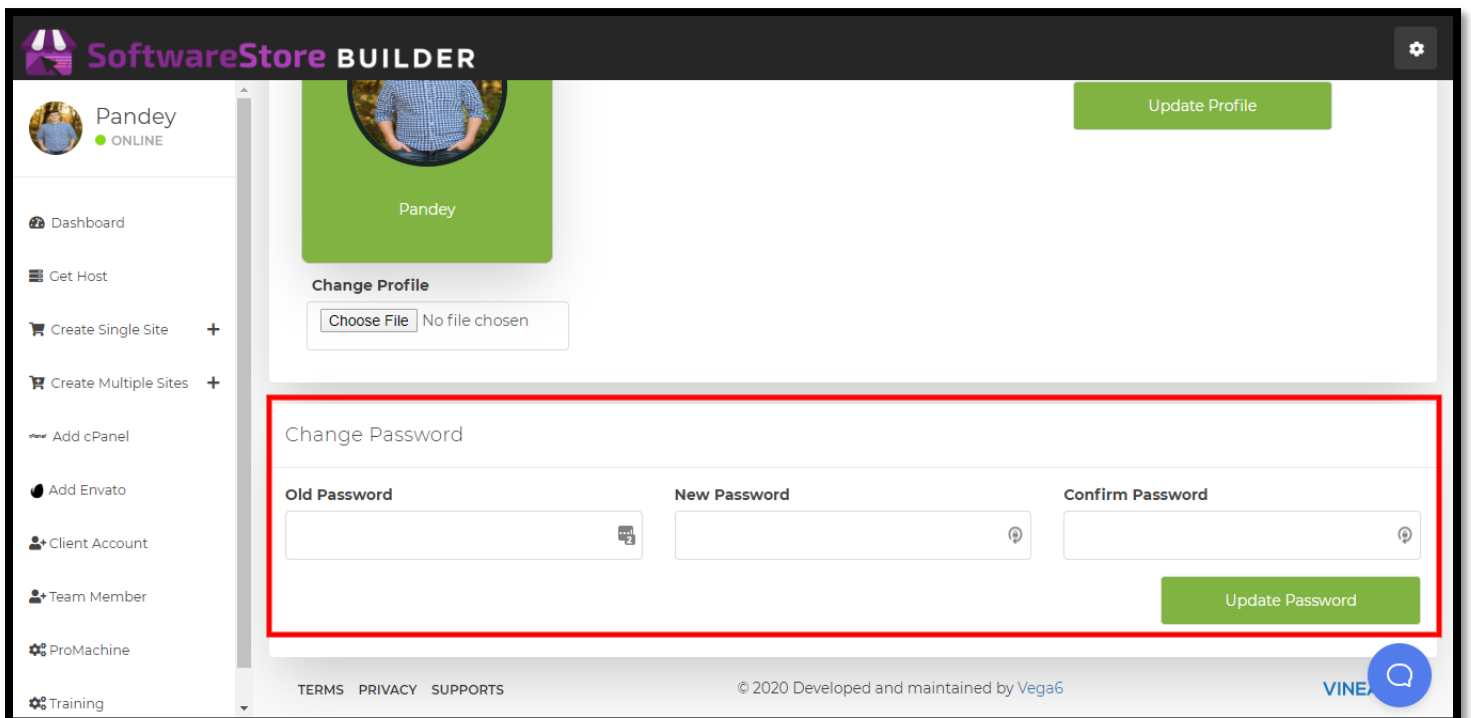

In Software Store Builder, you have two options to change your password. One is inside the app and the other one is through the “Forget Password” option in case you totally forgot what your password is.

I. Change the password inside the app

1. Click on the gear icon located on the upper righthand corner of the dashboard then select **Profile**.

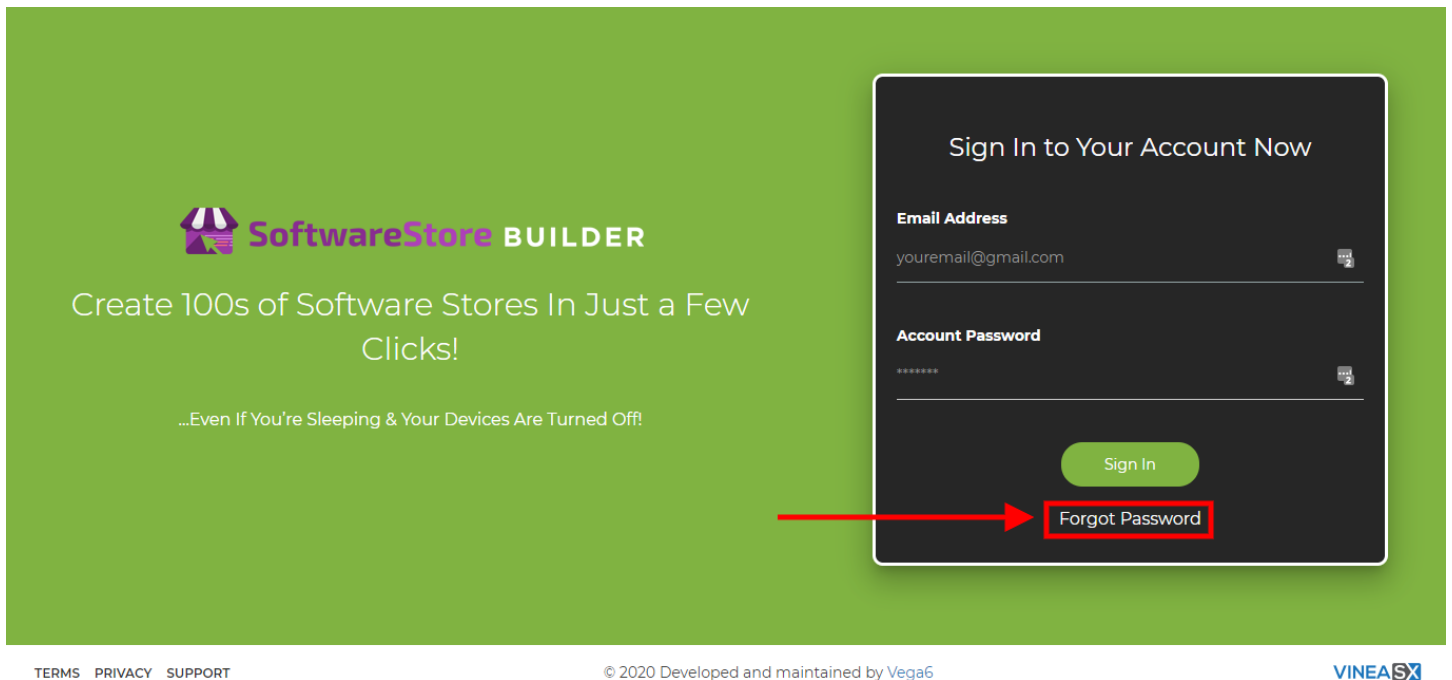

2. Scroll down until you reach the bottom part where you get the option to change your current password. Just enter your current password, the password you’d like to use- confirm, then click Update Password.

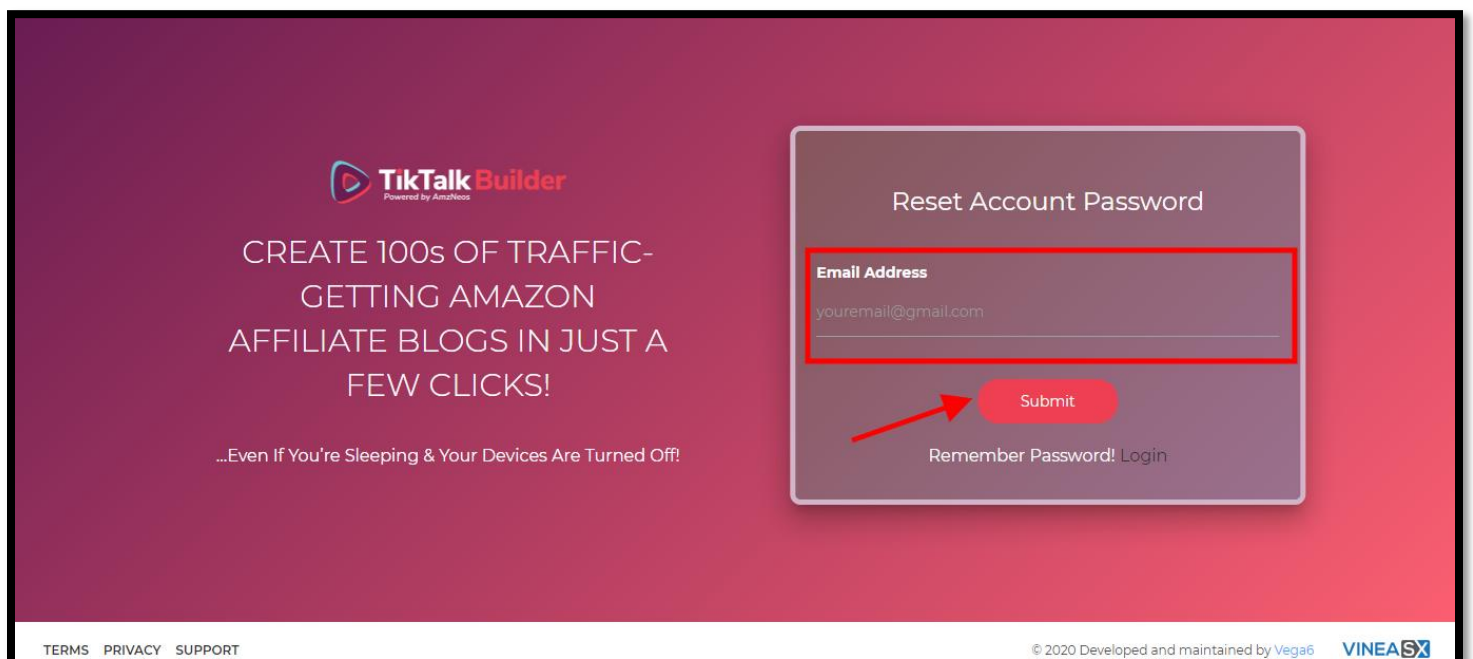

II. Use the Forgot Password option.

1. In case you totally forgot your AmzNeos password, go to <https://app.amzneos.com/login> then click on the "Forgot your Account details?" option.

3. Type your email address then click Submit.

4. You will then receive an email which contains the instructions on how to change your password.
